# Research areas

- Road user interaction and conflicts - video and surveys
  - Bicyclists and pedestrians – behaviour and safety
  - Driver behaviour, distraction, speed choice etc.
  - Young drivers - driver education, attitudes etc.
  - Leisure boat, snowmobiles, off-road cycling
- 
- Influencing behaviour – nudging, gamification, apps, intention implementation
  - Health effects of transport (increased cycling, SiN, e-bikes)
  - New transport modes - car sharing, self-driving vehicles
  - Security – perceptions
  - Underreporting of accidents and injuries (bicyclists)
  - Evaluation of measures – infrastructure, campaigns etc.
