

SAFER RESEARCH & PROJECT DAY

Wednesday, March 18, 2020 12:15-15:30

SAFER completed its fourteenth year on December 31, 2019! To present SAFER's broad competence within vehicle and traffic safety, we have put together an interesting program for you with presentations of recent research carried out in our four research areas.

Attending the networking lunch and seminar is free of charge and open to everyone who is interested in our research.

Welcome to the SAFER Research & Project Day 2020!

12:15-13:00 Networking lunch

13:00-13:10 Welcome and introduction to SAFER's Research & Project day, *Magnus Granström*

13:10-13:25 Efficient and Safe Product Lines of Architectures eNabling Autonomous Drive (Esplanade), *Fredrik Warg*

13:25-13:40 Sweden4platooning, *Xu Wen*

13:40-13:55 Heterogeneous Traffic Groups Cooperative Driving Behaviours Research under Mixed Traffic Condition, *presenter TBD*

13:55-14:15 Vehicle automation; is it needed, trusted and accepted by users and how do we mediate between the human and the automation? Project conclusions from e.g. ADAS&Me, *Anna Sjörs Dahlman*

14:15-14:30 Coffee and something sweet

14:30-14:45 L3Pilot - Large scale test of automated cars on public roads, *John-Fredrik Grönvall*

14:45-15:05 Human Body Model developments at SAFER, *Johan Iraeus*

15:05-15:20 Assessment of Passenger Safety in Future Vehicles, *Lotta Jakobsson*

15:20-15:30 Summing up, *Magnus Granström*

Date: 2020-03-18 12:15-15.30

Place: Lindholmspiren 3, Lindholmen Science Park, Gothenburg

Room: Demostudion, floor 2
