

WELCOME TO SAFER DAY 2017

Study trip to Halmstad University and Cycleurope in Varberg

Thursday, December 7th, 2017

Welcome to join SAFER to Halmstad University and Cycleurope in Varberg! During the day we will visit the university in Halmstad, learn about their research and about the competence available for us in SAFER. In Varberg, we will visit Cycleurope, the famous bicycle manufacturer, which is also part of one of Europe's leading bicycle groups. We get the unique opportunity to visit the factory, a tour we promise you will be very exciting. We will also learn more about bike safety and challenges in this area. The purpose of the study tour is to learn more about the SAFER partners, share knowledge and get inspiration to new projects. And to have fun together of course!

Sign up no later than December 4: <http://bit.ly/2ji5MN9>
